*****Clients often choose to have some additional non-holiday songs mixed in—especially for events with a dance floor. See our non-holiday list [HERE](#).**

Don't see your favorite?

Our Featured Repertoire is just a sampling of the hundreds of songs we perform.

Our music library spans hundreds of selections across jazz, swing, Motown, soul, pop, holiday favorites, and custom arrangements.

If you have a special request, we'd love to create the perfect soundtrack for your event.

A Little Note About the Music...

Think of our Featured Repertoire as the menu—not necessarily the order you'll hear it. Every event has its own rhythm, and one of the things we love most is reading the room and choosing the perfect song for the perfect moment. Sometimes that means easing into the evening with timeless standards. Other times, it means realizing your guests are ready to fill the dance floor a little earlier than expected.

We'd love for you to share up to four must-play songs (whether they're on our list or not), along with up to four do-not-play songs.

After that, leave the rest to us.

You hired a live band—not a shuffle playlist—and creating the perfect soundtrack for the moment is what we love to do.
